WELDED STEEL STRUCTURES - MECHANICAL PRECISION CUTTING - ELECTROCHEMICAL ZINC PLATING

SC Westmetal SRL, established in 1994 with privat capital,
it is a family business with mechanical profile.

WELDED STEEL STRUCTURES

Metal confections, MIG-MAG, WIG and point welding. Industrial trolleys and transportation equipment, Stainless Steel work, wrought iron, pressing works

PROCESSING CAPACITIES:

1. Profile cutting with bandsaw :
 - a. diam. max. - 180 mm
 - b. diam. max. - 230 mm
 - c. diam. max. - 360 mm
2. Guillotine debiting: grosime maxim.- 8 mm, lungime max.- 2500 mm.
3. Pipe bending:
 - a. Stainless diam. max. - 40 mm
 - b. Steel, diam. max. - 60 mm
 - c. Minimum radius. - 80 mm
 - d. Maximum radius. - 300 mm

4. Abkant bending : maximum weight - 63 tones, maximum length – 3000 mm

5. Drilling : max. diameter – 50 mm

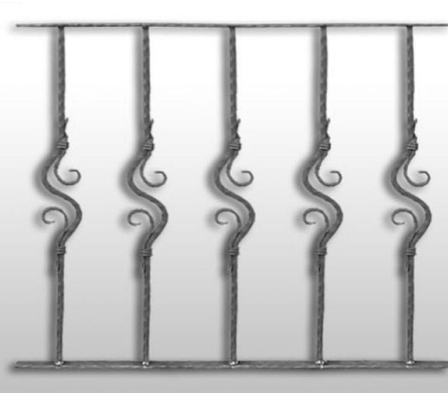

6. Pressing

- a. 5 tone
- b. 25 tone
- c. 40 tone

7. Welding

- a. MIG-MAG - max. -300 Amper
- b. WIG - max. -250 Amper
- c. Welding in Points - max -320 Amper

8. Plasma Cutting: Steel-35mm, Stainless-10mm
